EDUCATION

Sinhgad Institute of Technology, Lonavala <i>Bachelor of Engineering in Information Technology</i>	2022 – 2026 7.61
Kusumtai Jr. High School, Cidco, Nanded <i>MSBSE class XII</i>	2022 66.67%
Podar International School, Nanded <i>CBSE class X</i>	2020 90.08%

EXPERIENCE

Itsudharna Technology Solution Pvt. Ltd. <i>Full Stack Web Developer</i>	Jul 2025 – Jun 2026 <i>Hyderabad, Telangana (Hybrid)</i>
- Built and shipped full-stack features for a Gen AI-powered web application using React and Node.js, integrating the Gemini API to power AI-driven functionality. - Implemented JWT-based authentication and designed secure, scalable RESTful APIs with optimized database schemas. - Owned end-to-end feature development — from requirement analysis to deployment — collaborating with product, design, and QA teams in Agile sprints.	
Itsudharna Technology Solution Pvt. Ltd. <i>Junior Full Stack Developer (Intern)</i>	Jan 2025 – Jun 2025 <i>Hyderabad, Telangana (Hybrid)</i>
- Built and deployed a full-stack social media application using the MERN stack (MongoDB, Express.js, React, Node.js). - Developed responsive React interfaces and RESTful backend APIs supporting core application features under the guidance of senior developers.	

TECHNICAL SKILLS

Languages: JavaScript, Python
MERN Stack: MongoDB, Express.js, React.js, Node.js
Other Frameworks & Libraries: Next.js, Mongoose, JWT, NextAuth, Tailwind CSS
Developer Tools: Git, GitHub, Postman, VS Code, Google Cloud Platform

PROJECTS

ContribuX <i>Next.js 15, React 19, MongoDB Atlas, Razorpay, NextAuth v5</i>	GitHub
- Developed a creator-funding platform enabling creators to receive recurring and one-time support. - Implemented user authentication, creator dashboards, and campaign management features with secure backend workflows.	
Gen AI Powered Full Stack Web Application <i>React, Node.js, Express.js, JWT, Gemini API</i>	GitHub
- Built a full-stack web app integrating Google Gemini API for AI-powered features using React and Node.js. - Implemented JWT-based authentication for secure, stateless user sessions and designed RESTful APIs connecting frontend and backend.	
Full Stack Social Media Application <i>React, Node.js, Express.js, MongoDB (MERN)</i>	GitHub
- Built and deployed a full-stack social media application using the MERN stack. - Developed RESTful APIs with Express.js and Node.js, and modeled application data using MongoDB.	

ACHIEVEMENTS

- Gained **1.5+ years** of full-stack development experience shipping production features across the **MERN stack**.
- Designed and shipped multiple full-stack apps, including a **Gen AI-powered app**, a **social platform**, and **ContribuX**.
- Applied **RESTful API design**, **JWT authentication**, and **database optimization** across production and personal projects.
- Applied strong **DSA and problem-solving** skills to build scalable, modular software solutions.

COURSEWORK

- Data Structure and Algorithm – **9 GPA**
- Object-Oriented Programming – **9 GPA**
- Operating System – **8 GPA**
- Database Management System – **8 GPA**
